

# REPLACEMENT PROP SELECTION CHART

Minn Kota offers a wide range of replacement props to fit all existing and many discontinued models. The props include the nut attachment and can be installed in seconds.

## WEEDLESS WEDGE 2

The next generation of the industry's only 100% fully weedless prop. Swept-back, flared blades "wedge" weeds away, allowing you to pass through heavy vegetation at any speed, without draining valuable battery power.

## EXCLUSIVE WEEDLESS WEDGE PROPS

The patented Weedless Wedge is the only 100% weedless prop in the history of fishing. The leading edge on each propeller blade is shaped with a swept-back edge that always meets at an angle of less than 45 degrees. "Wedges" weeds away from the hub – even at slow fishing speeds.
